

Environmental Policy

IMC Slovakia is committed to the protection of the environment in meeting its business requirements.

- We promote a balanced and responsible approach to energy resources and the protection of the environment. We see it throughout the entire life cycle of our products
- We use the best available technology and make efficient use of materials, raw materials and energy resources
- We protect the environment and carry out pollution prevention; we comply with and fulfil legislative and other specific obligations that are relevant to the context of our organization
- We support sustainable development and continuous improvement of environmental management system (EMS) to enhance environmental performance
- We promote an open dialogue with all stakeholders, including the public, on our environmental impact
- We strive to ensure that our business partners work on the same principles
- We aim to guide and motivate our employees to reduce their own waste and take advantage of recycling opportunities. We actively involve them in improving the environment.

MSc. Jaroslav Ďurkovský, with his own hand
CEO and authorized representative of IMC Slovakia, s.r.o.
